

RACE MATTERS FOR JUVENILE JUSTICE

“RACE MATTERS NOW SO IT WON’T MATTER LATER”

Research has demonstrated that children and families of color are disproportionately represented in the child welfare system and frequently experience disparate outcomes. Whereas children of all races are equally as likely to suffer from child abuse and neglect, the percentage of African-American and other minority children who enter and remain in out-of-home care is greater than their proportion in the population.

RACE MATTERS FOR JUVENILE JUSTICE brings together judicial officers, systems' experts, service providers and community partners who have set an agenda to reduce the disproportionate representation of and disparate outcomes for children and families of color in the juvenile justice system.

comes for children and families of color in the juvenile justice system.

OUR VISION is a Charlotte-Mecklenburg community where the composition and outcomes of juvenile courts cannot be predicted by race and/or ethnicity.

OUR MISSION is to build a collaboration of community stakeholders who will bring their constituencies to the table and partner in the Court's effort to reduce disproportionality and disparities.
