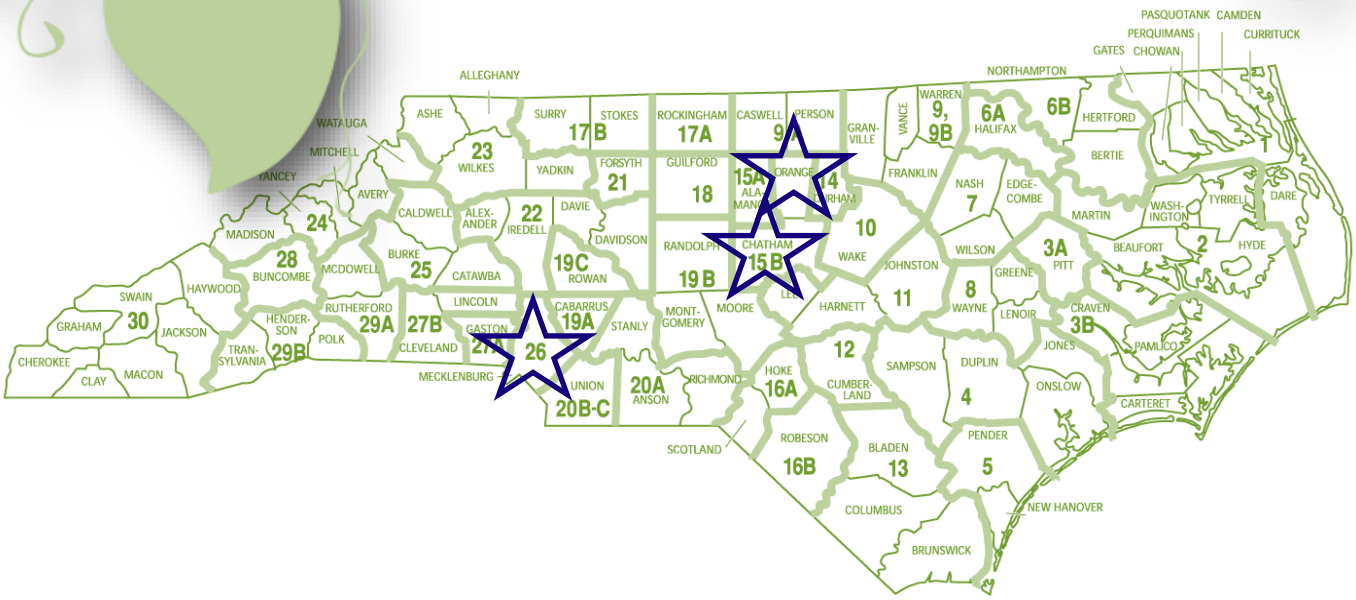
We're Growing!



Justice Initiatives (JI) is pleased to announce that Orange and Chatham counties have joined a budding community seeking to educate, advocate, support and advance the court system's needs and interests. Expansion into these counties and all that follow increases our capacity to advance smarter and innovative justice programs that build public trust and confidence in our courts. It also strengthens our ability to guard against threats that jeopardize the independence and integrity of the judicial branch.

We look forward to discussing further expansion with civic leaders, business owners, lawyers and concerned citizens from other North Carolina counties who fully understand that the rule of law is the bedrock of our civilized society and that a strong, prosperous and vibrant community requires a healthy court system.
